

# UNMAS PRIORITIES IN AFGHANISTAN

## 2022-2023

### PRIMARY FOCUS:

-  Enable humanitarian assistance by improving access
  -  Mitigate the risk presented by explosive hazards to humanitarian actors & beneficiaries
  -  Reduce casualties and prioritize the tasks with the most impact
- 

### PROJECTS:

- Conduct a nationwide survey to capture current explosive contamination status and other humanitarian needs
- Recruit, train and deploy Quick Response Teams for route assessment/verification, battle area clearance, spot tasks and EOD callout
- Train and deploy 10,000 young Afghans for large scale clearance, thereby providing livelihood opportunities
- Explosive ordnance risk education at three levels: community, regional/provincial and strategic communications
- Explosive ordnance risk education to international & national humanitarian workers
- Support humanitarian mine action coordination
