LANDMINE & CLUSTER MUNITION  
**MONITOR**

# Objectives

Through extensive collection, analysis, and distribution of publicly available information, the Monitor aims at:

- Providing a global overview of the international community's response to the landmine, cluster munition and ERW problem;
- Acting as a reliable one-stop hub of latest developments on all aspects of mine action;
- Promoting and advancing discussion on mine-, cluster munition-, ERW- related issues;
- Complementing transparency reporting;
- Contributing to efforts toward a mine and cluster munition free world.
