

## **United Nations Inter-Agency Coordination Group on Mine Action**

### **Intersessional Meetings of the Anti-Personnel Mine Ban Convention**

#### **Statement on Universalization**

**Geneva, 25 June 2015**

*Delivered by Mr. Bruno Donat, Chief, Geneva Office, UNMAS*

Mr. President,

The following statement is delivered on behalf of the Inter-Agency Coordination Group on Mine Action (IACG-MA)<sup>1</sup>, comprising 14 United Nations entities involved in mine action.

The United Nations welcomes your presentation and is grateful for the efforts undertaken by the Belgian Presidency in support of universalization of the Anti-Personnel Mine Ban Convention (APMBC).

The United Nations congratulates Oman for its accession last year to the APMBC: Oman made a positive contribution to the universalization process. The number of States Parties to the treaty has now reached 162, including nearly 70% of mine and ERW-affected states<sup>2</sup>. Though more than 30 States remain outside of the APMBC, most of the States that have used or maintained stockpiles of anti-personnel landmines, and the majority of States affected by anti-personnel mines have joined the treaty, which is a great achievement.

The Secretary-General of the United Nations, the Depositary of the APMBC, uses every opportunity to promote universalization of the treaty, as do several of our United Nations colleagues at both Headquarters and at country level.

Thank you.
