Context: Agriculture

- Nearly 3 million hectares of agricultural land affected;
- Preliminary, over \$ 31.5 billion indirect losses to the agriculture sector;
- Zero point of recovery;
- One of the Mine Action Priorities:
 - Critical Infrastructure;
 - Critical Safety;
 - Agriculture.

The Problems:

- ◆ Effective Architecture;
 - Tasking;
 - Coordinating EORE;
 - Prioritisation;
 - Complicated Architecture;
 - Certification Process;
- ◆ General Picture, Clear Plan

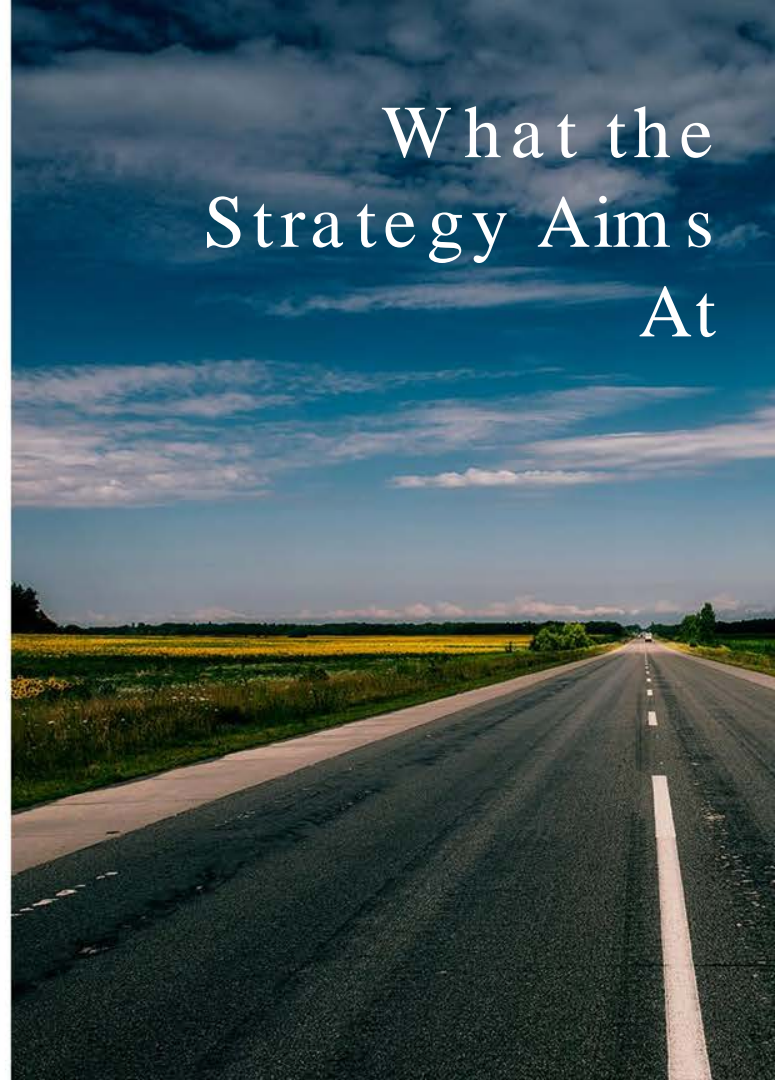

National Mine Action Strategy (Draft):

- To provide a clear roadmap, testifying to our direction and purpose;
- To Define Key Positions;
- Who, What, and When;

What the
Strategy Aims
At

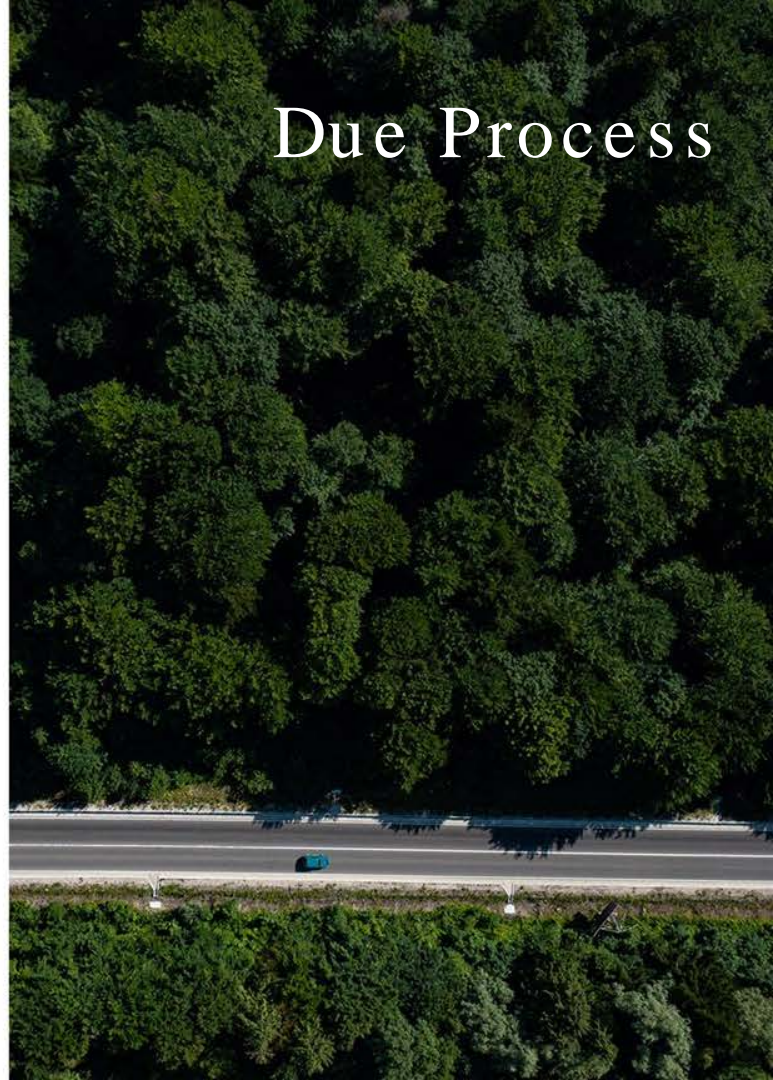

National Mine Action Strategy (Draft): The Process

- **October** – GICHD Workshop in Kyiv, Zagreb Presentation;
- **November** – Elaborating Sectoral Working Group Donor Feedback;
- **November** – Discussion with the Civil Society and Local Stakeholders;
- **December** – Submitting to the National Mine Action Authority (NMAA).

Due Process

National MA Strategy (Draft): The Essence

- **Vision:** Life Goes On in a Safely Manner Due to Effective Risk Management;
- **Strat. Objective 1:** Returning the Land to Productive Use;
- **Strat. Objective 2:** Accidents Prevention and Protection;
- **Strat. Objective 3:** Building Better MA Architecture.

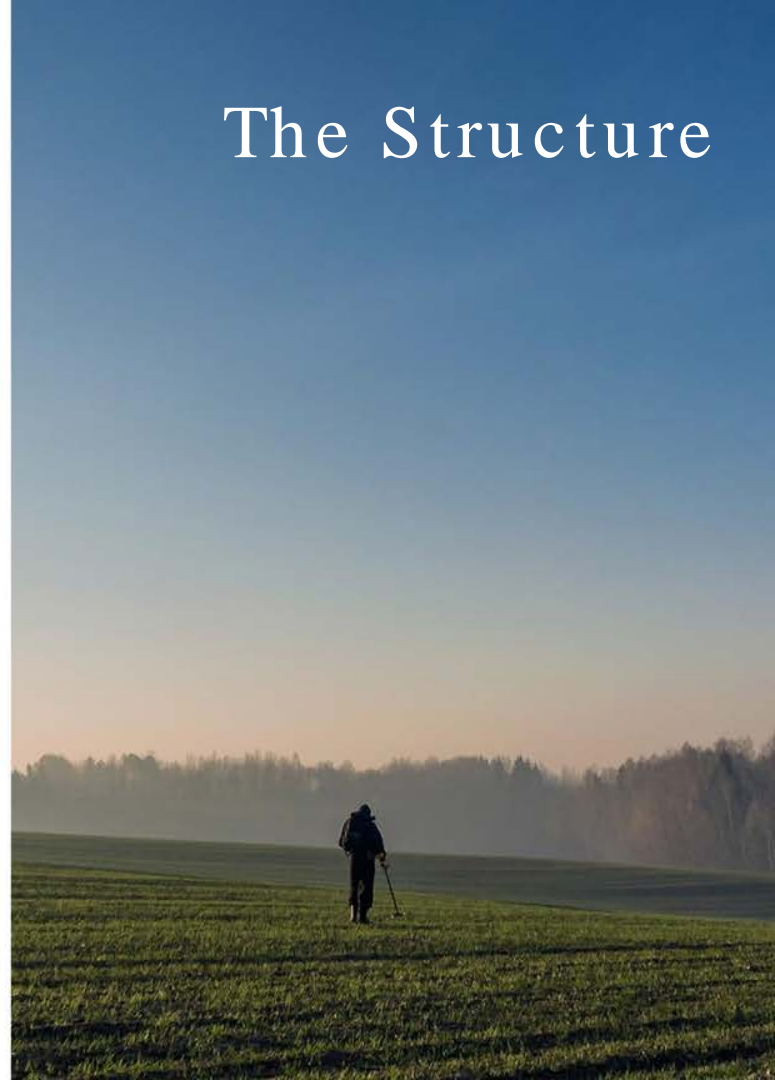

National MA Strategy (Draft): The Content

- Mine Action Architecture and Management;
- Capacity Building;
- Supporting MA Operators' Effectiveness;
- Accidents Prevention and Protection;
- Innovations;
- Gender balance and Representation;
- Private Market Development;
- Transparency and Accountability.

The Structure

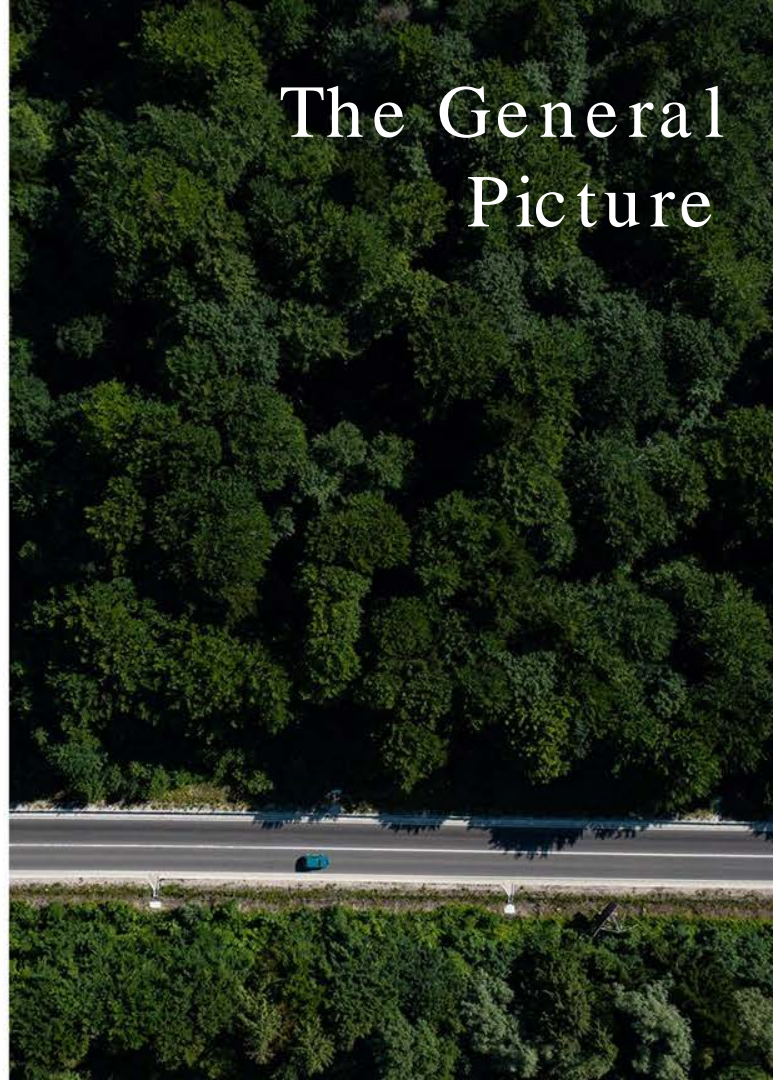

Enough Space for Any Assistance:

- **Protection and Prevention** – GICHD Workshop in Kyiv, Zagreb Presentation;
- **Supporting the Farmers** – Through the Private Market Mechanism;
- **MA Goods Production** – Reaching the Producers Through the Innovative Platforms;
- **Capacity Building:** Equipment, Training, Staffing.
- ...tell us.
