

Mine Action Support Group (MASG) Meeting, Geneva, 9 February 2017

Update from the Center for International Stabilization and Recovery (CISR),  
James Madison University

CISR is pleased to share the news that the third Regional Senior Managers' Course – and the thirteenth SMC in total since 2004 – will take place in Biograd na Moru, Croatia from 20 March to 7 April 2017. CISR thanks the U.S. Department of State for its continuing sponsorship of this important training program. CISR also recognizes its partnership with the Croatian Mine Action Center and other organizations in Croatia in planning and implementing the course.

In addition to its senior management training and the publication of its long-running *Journal of Conventional Weapons Destruction* (formerly *The Journal of ERW and Mine Action*), now in its 21<sup>st</sup> year, CISR offers a map service at no cost to members of the CWD community. This customized map production service draws upon CISR's graphic design and publications expertise, and the knowledge and skills of JMU's Geographic Science faculty.

Please see the attached information sheets for more details about these programs and services provided by CISR to the CWD community with generous support from the U.S. Department of State.
