

Clearing for Results III

Project:	Clearing for Results Phase III: Mine Action for Human Development
Area of work:	Clearance; Risk Education; Capacity Building; Information Management; Coordination (of mine action programmes); Data Collection and Surveillance.
Appealing Agency:	United Nations Development Programme (UNDP)
Project Budget:	2016 US\$2,293,697 2017 US\$2,428,468 2018 US\$2,428,468 2019 US\$3,055,108
Funds Requested:	US\$4,000,0000
Implementing Partners:	Cambodian Mine Action Authority (CMAA)
Targeted Beneficiaries:	80,000 Households
Project Duration:	01 March 2016-29 February 2020
Project Code:	New
CAP Code	

Objectives

1. Mine action policies and strategic frameworks are aligned to national and sub-national sectorial policies and planning strategies
2. A CMAA mine action programme performance monitoring system exists that delivers quality evidence on sustainable development outcome/impact
3. A minimum of 27 km² of the total mine/ERW contaminated areas located in the most affected and poorest provinces are impact-free

Activities

- Establish a CMAA mine action programme performance monitoring system that links human development and mine action.
- Training of Trainers (ToT) for the collection and reporting of the new set of indicators for the mine action sector.
- Strengthen the CMAA's international and national participation in relevant fora.
- Conduct an Impact Assessment of priority mine-ERW-impacted areas and villages in the target provinces to be cleared.
- Contract mine action services clear a minimum of 27 km² in areas located among the most affected and poorest provinces from the impact of mines/ERW by the CMAA.

Expected Outcomes

Support the government in maximizing mine action results on human development: (i) the development of performance monitoring systems: that links mine action to human development in a systematic manner and ensure gender disaggregated and poverty related indicators are factored in; (ii) land release activities: that in respect of gender equality principles would involve poor communities in responsible and effective land release, and contractors in effective and efficient use of new technologies.

Budget Items, in US\$	2016	2017	2018	2019
Mine action policies and strategic frameworks are aligned to national and sub-national sectorial policies and planning strategies	30,000	0	0	0
A CMAA mine action programme performance monitoring system exists that delivers quality evidence on sustainable development outcome/impact	120,000	60,000	60,000	30,000
A minimum of 27 km ² of the total mine/ERW contaminated areas located in the most affected and poorest provinces are impact-free	2,143,697	2,368,468	2,368,468	3,025,108
Total	2,293,697	2,428,468	2,428,468	3,055,108
